(4) if the responding party either fails to respond to a request for arbitration or does not agree to arbitration, the initiating party retains the right to proceed with a formal complaint;

(5) if both the initiating party and the responding party agree to arbitration, the commission shall designate an arbitrator; the arbitrator may be a permanent or temporary employee of the commission or another state agency or any other individual who is acceptable to the parties to the complaint; the designated arbitrator shall have no official, financial or personal conflict of interest with respect to the issues in controversy, unless such interest is fully disclosed in writing to all parties at the time of the commission's designation and all parties agree that the arbitrator may serve; the parties shall be required to indicate their consent in writing to the designated arbitrator within 10 days of the date of the commission's letter of designation; if the parties request an arbitrator who is not an employee of the commission, the commission shall not approve the request unless the parties agree in writing to bear the costs as their own pursuant to Sections 8-8-4 and 62-13-3 NMSA 1978;

(3) discovery will be permitted but only with leave of the arbitrator who shall not allow discovery which unduly complicates, burdens, or impedes the expeditious and informal nature of the proceeding;

(4) whenever the arbitrator deems it necessary to make an inspection or investigation in connection with the arbitration, he shall so advise the parties and staff, who may be present at the inspection or investigation; in the event that one or both of the parties or the staff are not present, the arbitrator shall make an oral or written report to the parties and staff and afford them an opportunity to comment;

(5) at the close of or soon after the hearing, the arbitrator will issue a brief written decision; findings of fact and conclusions of law are not necessary; the arbitrator's decision will be binding on the parties and can be implemented by the commission to the extent such implementation is necessary; however, the decision will not be a decision of the commission and shall have no precedential effect;

(6) unless agreed to by all the parties and staff, no statements, admissions, or offers of settlement made during the course of arbitration proceedings shall be admissible as evidence in any formal proceeding nor shall the arbitrator disclose the same voluntarily or through discovery or compulsory process; nothing in this section, however, shall preclude the arbitrator from issuing a brief written decision describing his conclusions and the bases for them;

(7) nothing in this rule shall be construed to mean that the commission has waived its review of any decision or that the commission consents to be bound by arbitration.

For 2021, the access lines used for the comparison to 2014 shall be as of December 31, 2019, adjusted annually thereafter. The SRUSF revenue requirement formula under this section may be stated arithmetically as follows: revenue requirement minus imputed benchmark revenue.

F. The revenue requirement for an ETC that became an ETC after July 1, 2005 or that became an ETC prior to July 1, 2005, but is not a local exchange carrier, shall be determined annually by the administrator in conjunction with the administrator's determination of fund size, and shall be in accordance with the support rate determined by the commission pursuant to 17.11.10.23 NMAC.

G. For an ETC that is not eligible for funding pursuant to rate rebalancing per Subsection K of Section 63-9H-6 NMSA 1978 that has been previously authorized for support pursuant to Subsection M of Section 63-9H-6 NMSA 1978, that ETC may petition for ongoing funding pursuant to Subsection K of Section 63-9H-6 NMSA 1978, subject to the following:

(1) the commission shall award an applicant ongoing fund support at no less than the average access line amount of funding support for comparable carriers; provided that an eligible telecommunications carrier receiving fund support pursuant to the subsection shall not offer basic local exchange residential and business services at rate levels lower than the rates for such services charged by any of the comparable carriers used for the determination of the level of support;

(2) the commission shall act upon a request for ongoing fund support within one hundred twenty days of the filing of the request.

17.11.10.20 DETERMINATION OF SRUSF SURCHARGE RATE AND CONTRIBUTION:

A. The administrator shall recommend the amount of the SRUSF surcharge rate for the next calendar year, on or before September 1 to enable commission approval on or before October 1, based upon monthly and annual reports filed by ETCs and contributing companies, broadband program grants awarded by the commission, and any other pertinent and reliable information available to the administrator or the commission, and applying the annual fund cap set forth in Subsection C of 17.11.10.19 NMAC.

B. The commission shall either set a percentage surcharge rate equal to the annual fund requirement determined by the commission divided by the sum of intrastate retail public telecommunications service revenue, or in the alternative, set a fixed charge applicable to each non-exempt communication connection equal to the annual fund requirement determined by the commission divided by the number of non-exempt communication connections for all contributing carriers in New Mexico. The surcharge rate or fixed charge may be adjusted to account for any material deficit or surplus projected to exist at the start of the fund year, subject to the annual fund cap.

C. Each contributing company's monthly contribution shall equal the state rural universal service fund surcharge rate multiplied by its intrastate retail telecommunications revenues or non-exempt communication connections, as determined by the commission, in New Mexico for the month.

D. If, for any month the administrator finds that the fund balance is insufficient to meet the total obligations of the fund, (including support pursuant to 17.11.10.19, 17.11.10.25, 17.11.10.31, and 17.11.11 NMAC) plus administrative expenses and maintenance of a prudent fund balance, the administrator shall prorate all payments to each ETC, with the exception of payments pursuant to 17.11.10.31 NMAC and 17.11.11 NMAC. In the event the administrator determines that such a prorated reduction in payments is reasonably likely to occur, the administrator shall immediately notify the commission and the commission will take prompt action to increase contribution requirements, subject to the annual fund cap set forth in Subsection C of 17.11.10.19 NMAC, or otherwise account for the shortfall and will provide for true-up payments for any underpayments occurring if prorated reduced payments are required before the contribution requirements can be increased. If the fund accumulates a surplus beyond what the administrator and the commission believes is prudent under the circumstances, the administrator may, with the commission's approval, decrease contribution requirements so as to lower the fund balance to an appropriate level.

E. Each contributing company shall remit its monthly contribution to the administrator on a schedule to be determined by the administrator.

Such recovery shall be made in a fair, equitable and nondiscriminatory manner, and no over-recovery of contributions shall be permitted.

B. A contributing company required to provide service in accordance with commission approved tariffs shall not recover contributions from its end-user customers except as permitted under commission approved modifications to those tariffs.

C. The commission may, after notice and hearing, order modifications to a contributor's method of recovering contributions from its end-user customers.

17.11.10.22 FUND DISBURSEMENTS:

A. The administrator shall make a monthly disbursement to each ETC eligible to receive such a payment from collected revenues in the fund, on a schedule to be determined by the administrator.

B. The amount of each ETC's monthly disbursement shall be one-twelfth of its revenue requirements computed in accordance with 17.11.10.19 NMAC, subject to proration as provided in Subsection E of 17.11.10.20 NMAC.

C. Only carriers holding ETC status as of October 1 shall be eligible to receive disbursements from the fund during the year that begins the following January 1.

D. The administrator shall not pay, and shall hold in escrow, any disbursements otherwise due to an ETC that is also a contributing company, if that company shall not be in compliance with its contribution requirements.

17.11.10.23 DESIGNATION OF ETCs:

A. Any carrier operating in New Mexico and designated as a state ETC as of July 1, 2005 and which has not lost that designation is automatically designated as an ETC for the purposes of this rule. If at any subsequent time a carrier loses ETC designation status, it shall no longer be eligible to receive support from the fund.

B. Other carriers may file a petition for designation as an ETC in accordance with 17.11.10.24 NMAC.

C. On its own motion or in response to a petition, the commission may, after notice and hearing and for good cause shown, modify, suspend, or revoke an ETC designation.

D. The commission may, upon request, establish the ETC's amount of amount of an ETC's support from the fund, if any in accordance with the requirements of 17.11.10.25 NMAC.

B. In addition to establishing need as described in Subsection A of this section, a petition for support based on need shall identify the geographic area for which support is requested, and shall demonstrate with particularity how the proposed payments from the fund will be used in a manner consistent with the use of fund support requirements set forth in 17.11.10.27 NMAC.

C. In support of the petition, the ETC must make available to the commission such information from the ETC that the commission deems necessary, including but not limited to information relating to the ETC's regulated revenues, expenses, and investments, to determine whether support is needed to ensure the widespread availability and affordability of universal service in the area identified in the petition.

B. The contributing company shall pay the requested amount within 21 days of the date of the notice or seek dispute resolution as provided in this rule.

17.11.10.27 USE OF FUND SUPPORT:

A. An ETC shall use fund support in a manner consistent with the rural telecommunications act, Sections 63-9H-1 NMSA 1978 *et seq*, Section 254 of the federal telecommunications act (47 U.S.C. 254), and commission rules and orders. Fund support must be used to maintain and support universal service; provided, however, that each ETC receiving support pursuant to 17.11.10.19 or 17.11.10.25 NMAC must expend no less than sixty percent of the support it receives to deploy and maintain broadband internet access services in rural areas of the state, Subsection F of Section 63-9H-6 NMSA 1978.

B. If the commission finds, in a proceeding on its own motion or on the motion of the administrator or an interested party, that an ETC has used fund support for purposes other than to preserve and advance universal service or that the ETC has failed to satisfy the sixty percent minimum expenditure requirement referenced in Subsection A of 17.11.10.27 NMAC, the commission may impose an appropriate administrative remedy, which may include, but need not be limited to, ordering the ETC to refund amounts paid to it from the fund and withholding future payments.

17.11.10.30 ADVISORY BOARD:

A. The commission shall establish and appoint an advisory board composed of representatives from participating contributing companies and ETCs, the attorney general, the commission staff, and any representative(s) of one or more consumer groups or organizations that the commission may choose to appoint. The members shall include no more than one representative from each of the following types of telecommunications carriers and entities providing comparable intrastate retail services: incumbent rural telecommunications carriers; incumbent local exchange carriers other than incumbent rural telecommunications carriers; competitive local exchange carriers not ETC-designated; ETC-designated competitive local exchange carriers; commercial mobile radio service providers not-ETC-designated; and ETC-designated commercial mobile radio service providers. Any other type of telecommunications carriers or providers of comparable intrastate retail service may petition the commission for representation by no more than one member of that type of carrier or service provider on the advisory board, which the commission may grant by order. The commission shall resolve any dispute among the carriers or service providers of each type as to who shall be the member of the advisory board. Where deemed necessary by the advisory board, it shall make recommendations to the commission or the administrator, or both, relating to potential matters related to administration of the fund. Should the members of the advisory board not agree on a recommendation to the commission or administrator on any particular matter, the advisory board may provide a majority recommendation as well as a minority recommendation as to the resolution of any such identified issue. In addition, any member of the advisory board may, with advance written notice to the other members of the advisory board, provide individual recommendations or other information to the commission and the administrator that it deems appropriate. The advisory board is intended to be a forum within which to build consensus on matters relating to the administration of

the fund, while not deterring any interested party from communicating its concerns relating to the administration of the fund to the advisory board, or, subject to advance written notice to the other members of the advisory board, directly to the commission.

17.11.10.31 BROADBAND PROGRAM:

A. It is the goal of the commission that New Mexico consumers have access to high-quality broadband service from both wireline and mobile broadband providers. Pursuant to Subsection N of Section 63-9H-6, NMSA 1978, ETCs may separately apply to the commission for grants to fund the construction and maintenance of facilities that are capable of providing broadband internet access service to areas unserved or underserved by broadband in the state. Applications must be primarily for coverage of the construction costs of new facilities, but such applications may include a request for maintenance costs of those facilities as well. Each grant that is awarded will provide up to seventy five percent of the budgeted project cost, with the ETC applying the remainder from its own funds. Projects receiving any source of third-party funding other than potential loan funds, FCC high-cost fund legacy support or connect America fund support (including mobility fund support) will not be eligible. Each applicant shall provide a detailed description in their application of the origin and type of funding provided for the carrier match, and a certification that those monies are not duplicative of other purposes or projects other than SRUSF broadband program projects. In evaluating applications, the commission shall seek to avoid duplication of service using the same technology. Awards of support under this section shall be consistent with federal universal service support programs and be based on the best use of the fund for rural areas of the state. For purposes of administering the broadband program, the commission may find that a broadband program proposed project area is a rural area, notwithstanding the definition of rural area in Subsection U of 17.11.10.7 NMAC, if it determines that:

- (1) the area otherwise has the characteristics of a rural area;
- (2) the area is unserved or underserved by broadband; and
- (3) the public interest requires that the area be classified as rural.

B. Funding of the broadband program. At least eight million dollars (\$8,000,000.00) of the fund shall be dedicated annually to the broadband program. The amount of funding allocated to the broadband program shall not be subject to proration under Subsection E of 17.11.10.20 NMAC. To the extent a year's broadband program funding is not exhausted by grants awarded during that year, the funds will rollover to the following year.

C. Applicants for broadband program grants may request that company-specific information contained within an application be treated as confidential. The commission shall make all decisions regarding disclosure of company-specific information and may request further information or justification from the contributing company to ensure uniformity of confidential treatment of all information submitted by contributing companies. Nothing in this rule shall preclude commission issuance of an umbrella protective order identifying what reported data shall be, or shall not be, deemed confidential. The commission staff or a third-party contractor, shall keep confidential all company-specific information obtained from applicants for broadband program grants for which confidential treatment is requested, shall not use such information except for purposes of analyzing the applications, and shall not disclose such information in company-specific form unless directed to do so by the commission.

D. Minimum requirements for eligible projects. The commission will consider projects on a technology-neutral basis. Projects that apply technologies including, without limitation, wireline, mobile wireless, and fixed wireless technologies are all eligible for broadband fund grants. A project must meet the following requirements to be eligible for a grant award:

- (1) support broadband internet access service at speeds of at least 25.0 Mbps download/3.0 Mbps upload to all households and businesses in the proposed project area;
- (2) support voice grade telephony service to all households and businesses in the proposed project area. For this purpose, a voice over internet protocol (VOIP) based service is acceptable, as well as traditional voice telephony services and mobile voice services;
- (3) support access to emergency 911 services; and
- (4) offer a latency that is sufficiently low to support real-time, interactive applications.

E. Contents of grant applications. An application for support from the broadband program shall include, at a minimum:

- (1) a proposal to build telecommunications network facilities to service an area where the applicant is designated as a state ETC;
- (2) a detailed build plan setting forth a description of the facilities to be deployed, including all costs of constructing facilities; and
- (3) a map showing where service and coverage will be provided. This requirement can be met by providing;
 - (a) for a wireline network, a map showing all homes, businesses, and other end user locations passed; or
 - (b) for a wireless network, a coverage map generated using a radio frequency propagation tool generally used in the wireless industry;
- (4) an estimate of the number of road miles and square miles to be covered and population and population density of the area covered;
- (5) the amount of support requested from the broadband program and the amount of the applicant's financial match, and a description of any type, amount, and purpose of subsidy or financial support the applicant is currently receiving or is scheduled to receive in the area designated in the application;
- (6) a description of the technology to be deployed, including data throughput speeds and latency characteristics of the service to be delivered to customers;
- (7) a demonstration that the area to be served is an area unserved by broadband or an area underserved by broadband as defined in 17.11.10.7 NMAC. If the area to be served contains served, unserved and underserved areas, the application and map shall identify which portions of the area are served, unserved and which are underserved. Each served, unserved, and underserved area shall be clearly identified through color coding on the map submitted with the application. Each served, unserved, and underserved area shall be clearly identified through individual color coding indicators on all city street grid maps submitted with the applications. Satellite views are not acceptable for the application's requirement for mapping;
- (8) a demonstration of the estimated customer subscription rates and revenues from the services to be offered as a result of the proposed construction sufficient to justify support from the broadband program;
- (9) a commitment to provide a minimum twenty-five percent match of funds;
- (10) if the project is a wireless network deployment, a commitment to allow collocation on reasonable terms by other providers of commercial mobile wireless service or any public safety network and to abide by the FCC's collocation requirements for awardees under the federal universal service program;
- (11) sample terms and conditions for the service and proposed prices;
- (12) explain how the proposed deployment will contribute to the enhancement of digital equity and digital inclusion in the proposed service territory;
- (13) explain how the awards of support are consistent with federal universal service support programs;
- (14) a certification by an authorized representative affirming that all information set forth in the application is true and correct;
- (15) any other requirements to ensure accountability as the commission may develop and approve in a proceeding to determine the form and contents of grant applications; and
- (16) applications and mapping information must also be submitted contemporaneously with the New Mexico department of information technology broadband division.

F. The ETC must make the following commitments and include them in its application:

- (1) the broadband service must be offered at reasonably comparable rates for comparable services in urban areas;
- (2) the broadband service must be provided for at least seven years following project completion;
- (3) the ETC must abide by commission reporting requirements sufficient to monitor the progress of the project deployment and to ensure that all grant funds are being used efficiently and for the purpose intended; and
- (4) the ETC must commit to respond to commission inquiries regarding service-related complaints and commit to attempt to resolve service-related complaints in a reasonable manner.

G. Procedure for awarding support from the fund:

- (1) On or before May 1 of each year, the commission shall open a non-adjudicative, administrative docket and establish a deadline for filing applications for broadband program support for the following calendar year. The telecom bureau, or a third-party contractor, shall review and summarize all timely

applications. Only carriers holding ETC status as of October 1 shall be eligible to receive disbursements from the fund during the year that begins the following January 1.

(2) Interested persons may seek intervention in these proceedings, pursuant to 1.2.2.23 NMAC.

(3) On or before September 1, the telecom bureau shall make a presentation to the commission, with analysis of the applications for awards. The telecom bureau, or a third-party contractor, may communicate with applicants to request additional information or clarify information presented in the applications in order to prepare its presentation. Such presentations shall be considered by the commission but shall not bind the commission.

(4) At the September 1 presentation, the telecom bureau shall present a summary of projects. The telecom bureau shall provide the following information for each project on a single spreadsheet.

(a) cost per customer served or passed;
(b) type of technology;
(c) whether area is unserved or underserved (or, if area includes both, in what proportions);

(d) download and upload speed of service;
(e) monthly rates that the grantee intends to charge for the service; and
(f) telecom bureau comments on the project.

(5) On or before October 15, the commission, in coordination with the broadband office and the council, for prioritization and alignment with the statewide broadband plan, shall issue a decision approving or denying in whole or in part, each application. Among the factors that the commission will consider when selecting proposed projects for funding are the download and upload speeds that a project will provide and whether the project will serve an area unserved by broadband or an area underserved by broadband.

(6) On or before November 1, any interested person may file with the commission a request for reconsideration, in whole or in part, of any award of funds. Requests for reconsideration will not be valid after November 1.

(7) On or before December 1, the commission shall dispose of any motions for reconsideration.

H. Conditions for disbursement of awarded funds:

(1) The awardee commits to complete construction of its project within three years from the date of the commission's final order approving an award pursuant to 17.11.10.31 NMAC.

(2) For each awarded project, project reports shall be submitted to staff, consultant(s), and administrator(s) semiannually, during June and December and at the mid-point and completion of the project that provide information regarding the status of the project in a form accepted by staff. Semi-annual reports shall be submitted June 30, and December 31 of the calendar year. The midpoint disbursement report shall describe ETC progress on project milestones at the mid-point of the completion of the project pursuant to Paragraph (1) of Subsection E of 17.11.10.25 NMAC, prior to the release of a mid-point disbursement. The mid-point and final reports may be filed concurrently with the submission of the semi-annual reports, but may not be combined into one report. Within 30 days after project completion, the awardee shall submit a final report in a form accepted by staff demonstrating that the project as completed meets the coverage requirements set forth in the application, including a certification from an officer or director that all program requirements have been met.

(3) Prior to the initial disbursement, the ETC must notify the commission in writing that it is prepared to commence the project with regard to project engineering, ordering or delivery of required equipment, labor requirements, and that all permits have been granted to begin construction. The administrator shall disburse one third of the award promptly following receipt of the ETC's written notice that it is prepared to commence the project, one third at the midpoint of the project, and the remaining third upon project completion. The second and third payments may be requested as a single disbursement upon completion and are contingent upon the submission of acceptable project status reports pursuant to Paragraph (2) of Subsection H of 17.11.10.31 NMAC. The commission may, within 30 days after submission of a report, order additional information to be provided, suspend payment by the administrator, or take other action as necessary after notice and hearing.

(4) Any applicant found to have willfully misrepresented information in an application, is found to have used support unlawfully, or fails to meet the commitments set forth in the application, may be subject to refund of award funds or other actions of the commission.
